Friends Around the World 3rd Anniversary CAL 2018
Base Rounds For Joining
Claire Suttcliffe

These sets of rounds are to bring the final count for each square to the same amount so that you are ready for joining. Please take note of which square uses which set of rounds. They are listed above the instructions for each set of rounds to help you. Numbers in brackets after square numbers refer to the count per side for those squares.

Single crochet (sc) has been used, starting with ch1 which doesn't count as a stitch throughout, and the first sc is worked in the same stitch as the ch1.
The hidden stitch, where mentioned, is the first stitch after a corner chain space.
Each round is joined with a slip stitch (slst), to the first sc of that round.
No colours have been added as you are free to choose whichever colour you want. If you use one colour for all rounds, slst to the corner chsp to start the next round each time.

If you are using less squares for your project and want a larger border around each square, you may use half double crochet (hdc), or double crochet (dc) instead. If you choose to use hdc, you can still start with ch1 and hdc in the same stitch as the ch1 but if you choose dc, you will need to ch3 first which will count as your first stitch then work the next dc into the next stitch.
